

# ONLINE PRIVATE LESSONS

## PRIVATE LESSONS

One to one time with your teacher to work on your own goals and dance skills. Classes will be tailored to you personally and can be delivered at a time that works for you and the teachers. Book a one off, monthly, bi weekly or weekly lessons to help you keep progressing well at home. Booking in advance essential.

## FEES AND BOOKING

Please contact Miss Kayleigh with your availability and if there is anything in particular you would like to work on. We will then schedule a time that works for you and the teacher and you will be sent a meeting number and password. Payment is required on booking to the usual account. Private Lessons are £10 for 30 minutes. (With a few minutes either side to get started/wrap up) You can re schedule your class if needed but please do so at least 12 hours before otherwise you may still be charged for the session and the fee will not be transferable.

## YOUR CAMERA

Before your lesson, take a bit of time to arrange a decent camera angle for your dancer. In order for them to get the best out of their lesson, their teacher needs to see as much of the dancer as possible, so a device should be positioned so that we can see the dancer head to toe. Students will be able to see much better if they are using a laptop or larger screen in order to see their teacher well- it may be difficult for them to see and hear on a phone, so if you are able to spare a larger screen, that would be great.

## USING ZOOM

You do not need to sign up just follow the link we send and put in the Meeting ID and password. Take a bit of time to familiarise yourselves with the way Zoom works. It is relatively easy to get used to if you aren't already familiar. Ensure that you have the latest version of Zoom if using the app.

## **DANCE SPACE AND ATTIRE**

Make sure your dancer has adequate space around them to dance, which is free of obstacles and obstructions. We will adapt our teaching to make lesson space much smaller than they would be in the studios, but we are still keen to minimise any risk of dancers colliding with things, or tripping over things. Ideally the floor will be free of carpet, and with around 5sqm of clear space (ideally). The garden is a great option, if the weather is good (on grass, not concrete or decking). You may need something in place to act as a barre, that is quite sturdy (chair) this should be high enough so the hand rests a little lower than the elbow. Dancers should be dressed in their uniform, with their hair tied back. (Fitted easy to move in clothing if not) This is for health and safety and to help students get into the right mind set for dancing. Ensure you have water to hand and can easily ventilate the room if needed. Please do not hesitate to contact me if you have any questions about space.

## **SMALL GROUP BOOKINGS**

We are able to organise 30 minute group sessions. If you would like to book one please arrange some times collectively that would work and what they would like to work on as a group so we can sort this easily. These session prices will differ depending on numbers in the class.

## **OTHER INFORMATION**

Our usual insurance covers online classes. As the dance teacher is not physically present dancers under the age of 16 should be supervised and have permission whilst online and appropriate care and attention should be applied whilst executing exercises. Please make sure the floor and space is suitable to dance in. In the unlikely event that damage or injury should be sustained while participating in classes New Forest Academy of Dance will not be liable.

If there is substantial interference of lessons due to technical issues or other resonable factors we may take the decission to reschedule the lesson or reduce a futre class rate, each situation will be evaluated as it happens and action taken if needed.

Please do not hesitate to contact me if you have any questions at all.
